End Application:

6625-01-258-0858 meter, power factor

Component Type And Quantity:

1 printed wiring board and 9 cap and 25 resistor and 3 inductor and 4 diode

Special Features:

Component type and quantity; xstr1; integrated circuit 4; component quantity: 49; includes schematic and overlay

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
