Functional Description:

Isolates and selects wavelengths between input/output optical ports

Supplementary Features:

600-1800nm spectral range; directwavelength readout on micrometer dial; compact size for system buildup; size, 3.5 in. W, 7.0 in. L, 1.0 in.

H; has 50/125um and 100/140um cables

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
