Supplementary Features:

Includes top cover 1; console power panel 1; power sensor circuit card assembly 1; cable bandmarker 1; front bulkhead 1; connector cover 1; console power chassis 1; relay bracket 2; console power panel 1; connectors; relay socket 3; semiconductor device 5; capacitor 1; knob 1; relay 3; mounting pad 2; insulator disk 1; indicator light housing 12; lamp 3; fan 1; switch 3; bow handle 2; cables and electrical wire; misc hardware

Fsc Application Data:

System run box

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-a
