Electrical-electronic Test Equipment Plug-in Unit - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6625-01-306-9778

Unit Type:
Vertical plug-in
Special Features:
80 channels per card; binary, octal, decimal, hexidecimal, ascii display; 5 clock inputs; 100 mhz logic analyzer; probe voltage porm 40 v;
memory data acquisition 1024 samples/channel; types of analysis: 25 mhz state, 100 mhz timing, simultaneous state/state, simultaneous
state/timing
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fija:
