Alternating Current Voltage Rating In Volts:

120.0 and 240.0

Power Source:

Self-contained or external

Phase:

Single

Frequency In Hertz:

50.0 and 60.0

Functional Description:

Program and reprogram e2 proms used in two-way radios

Supplementary Features:

Wportable w/plastic case; 26 digitlcd readout; 8x159 dot continuous display; off storage time 100 hours; 65 characters keyboard plus special keys; ram capaci type 8 k bytes; 40 column printer display; internal nickle-cadmium batteries

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30800
