Circuit Current For Which Designed:

Ac

Frequency Rating:

50.0 hertz

Indicator Type:

Dial w/pointer

Installation Design:

Panel

Power Source:

External

Scale Graduation Type:

Linear single indicator single range

Scale Selection Method:

Switch

Features Provided:

Warning feature

Circuit Attachment Method And Quantity:

2 connector, receptacle

Operating Voltage Rating In Volts:

115.0 ac

Supplementary Features:

Measurement range unit-micromho

Fsc Application Data:

Demineralizer for electronic cooling systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
