

View Online at <https://aerobasegroup.com/nsn/6625-01-309-7923>

Special Features:

C/o 4 separate channels each with 2 inputs and 6 outputs; each channel provides 5 current source outputs and 1 complementary output; 96 watts with form 6 v at 10 a shared; output duration adjustable from 5 ns to 1 microsec; 2 position switch; input protection against input signals form 5 v by 5 microsec in size; rear connector 4 v; logic inputs 2 50 ohm direct-coupled; rate: 110 mhz typical input and output; delay 9.5 ns; only 1 output pulse is produced for each input pulse; current requirements: minus 6 v at 450 ma; minus 6 v at 215 ma; minus 12 v at 165 ma; plus 12 v at 20 ma; minus 24 v at 85 ma; quad 2-fold logic unit; to be used with Lecroy 8013a minicrate for support of 441/442

Shelf Life:
