Circuit Current For Which Designed:

Ac and dc

Indicator Type:

Digital display

Installation Design:

Panel

Measurement Range:

+3.0/+600.0 volts 1st indicator single range

Phase:

Single

Nuclear Hardness Critical Feature:

Nonhardened

Style Designator:

Rectangular surface mtg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
