End Application:

F16 c/d aircraft

Test Item Connection Method:

Cable

Functional Description:

Provides adaptation and identification of the memory loader/verifier (mlv) for the f16 application

Supplementary Features:

The data media is a sealed magnetic tape cartridge of 14.7 million bit storage capacity; it will consist of common interface elements between the mlv and mlv interface adapters, printedcircuit card, mlv power cable, a lid which is inserted into the mlv and a storage chest which also contains mlv cartridge storage provision

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A537k0
