Overall Length:

19.000 inches

Overall Height:

1.000 inches

Overall Width:

14.000 inches

Ac Voltage Rating:

Between 120.0 volts and 240.0 volts

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Phase:

Single

Special Features:

Gpib ieee-488 interface; rack mountable; used in conjunction with separate circuit card assembly installed in 340series generators

Functional Description:

Acts as interface between computer and 343 amplitude/offset unit; compucan control 343 through interface

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
