Width:

10.000 inches

Center To Center Distance Between Mounting Facilities Parallel To Length:

8.000 inches

Center To Center Distance Between Mounting Facilities Parallel To Width:

12.750 inches

Mounting Hole Diameter:

0.280 inches

Current Type:

Ac

Ac Voltage Rating:

120.0 volts

Depth:

5.000 inches

End Application:

End use load cell monitoring system for pedestal mounted 21-6x6 pad thrust and 9x9 journal bearing onboard 140 ft wtgb cg vessels

Presentation Type:

Digital display

Mounting Arrangement Style:

Four hole/stud rectangular/square

Mounting Facility Type And Quantity:

4 unthreaded hole

Display Digit Quantity:

5

Special Features:

Four position selector switch on front of box; 4 ea 6 pin, plugs labeled output and 4 ea 6 pin, plugs labeled input located in bottom of box

Height:

12.000 inches

Supplementary Features:

Waterproof

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
