Overall Length:

4.000 inches

Overall Height:

2.000 inches

Overall Width:

2.187 inches

End Application:

Noise calibration system, p/n 8970b/e09

Component Type And Quantity:

1 shield

Special Features:

Imajor components: circuit card assembly 1; mounting plate 1; mounting method and configuration: holes for screws, plate, screw, four 0.156 inch diameter holes spaced on random centers; yig construction

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A5110
