Overall Length:

6.200 inches

Overall Height:

1.750 inches

Overall Width:

4.000 inches

Test Item Connection Method:

Adapter/pin tube socket

Special Features:

3battery powered; pulse traps for balanced/unbalanced circuits to detectintermittent signals; 18 led indicators separated by signal source; includesdetachable v.35 cable, jumper wires, batteries, leather carrying case, operations manual; scope pins

Functional Description:

Allows access to 34 conductors ondte and dce interface to accommodate v.35 protocol; allows an rs-232-c dte tocommunicate with v.35 dce interface; allows monitoring of non-rs-232 interface activity and converts it for monitoring by rs-232 data analyzers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
