**End Application:**

Milstar fsd phase 2 digital test station, l393, serd 360

**Frequency Range:**

+600.0/+4800.0 hertz

**Test Item Connection Method:**

Jack and standard tube pins

**Special Features:**

Sci control interface, 5 vdc power

**Functional Description:**

Provides electrical connection and fault isolation between rfa control, p/n 654-0731-001, and sci control, p/n654-0730-001

**Reference Data And Literature:**

Serd 371, raytheon/rockwell contract f19628-85-0004

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A537k0
