Indicator Type:

Cathode ray tube

Special Features:

Mfg name-protocol analyzer

Functional Description:

Network testing and maintenance; hi-performance testing of analog and digital communication network

Reference Data And Literature:

Similar to 33a1-15-92-1

Supplementary Features:

Multiple item w/carrying case; major components-tims system tc2000-b3, signalling subsystem tc2020-b5, internal modem tc2030-03, remote communication tc2060-20, removeable hard disk tc2040-30, printer/plotter tc2040-20

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T263-c
