End Application:

DATA-AC-QUI-SITI

Unit Type:

Digital multiplexer

Functional Description:

Multiplexes voltage, resistance, thermocouples, strain gages; throuput rate of 100, 000 readings per sec directly controlled through a dedicated ribbon cable connected to 13-bit high speed voltmeter; plugs into 3582 data acquisition mainframe

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-b
