End Application:
DATA-AC-QUI-SITI
Unit Type:
Digital multiplexer
Functional Description:
Multiplexes voltage, resistance, thermocouples, strain gages; throuput rate of 100, 000 readings per sec directly controlled through a
dedicated ribbon cable connected to 13-bit high speed voltmeter; plugs into 3582 data acquisition mainframe
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
