Electrical Power Source Relationship:

Operating

Special Features:

O9 in. Diagonal crt; amplifier/adcllinear and log display modes, battery backed data; parameter memory; microprocessor analysis w/ digital integration and digital energy callibration; 100mhz 8192 channel amplifier/adc

Functional Description:

Tests particle counters used in peacekeeper stations

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T263-c
