Overall Length:

24.700 inches

Overall Height:

8.600 inches

Overall Width:

17.500 inches

Ac Voltage Rating:

Between 90.0 volts and 270.0 volts

Frequency Rating:

60.0 hertz

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Included

Unpackaged Unit Weight:

49.000 pounds

Special Features:

100/200 mhz; 64 channel; built-in disk drive; 5 1/4 in. 360 k; automatic setup; rs-232c port; ieee-488 interface; epson graphics screen printout capability; training kit; monitors/records digital input logic signals; 200 mhz maximum sample rate; video output of 1v p-p into 750; 1 mo input resistance; input capacitance porm 6 pf; battery backup cmos memory

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T263-c
