End Application:

Td-9950, optical time domain reflectometer

Unit Type:

Laser optical module

Special Features:

Singlemode; wavelength 1300 nm porm 30 nm; pulse widths 200 ns, 630 ns, 2 microsecs; range for scattering; 18 db (19 db typical); maximum distance 132 km; optical connectors; pc standard, biconic, d4; laser safety classification21 cfr class i

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-b
