Overall Length:

20.700 inches

Overall Height:

6.970 inches

Overall Width:

16.750 inches

Ac Voltage Rating:

Between 100.0 volts and 240.0 volts

Frequency Rating:

Between 47.0 hertz and 66.0 hertz

Frequency Range Rating:

+0.000/+22.000 gigahertz

End Application:

R.F. Test station; lantirn mob shelter station

Unit Type:

Plug-in

Mounting Method:

Rack

Plug-in Unit Quantity:

5

Phase:

Single

Special Features:

Downloadable programming; multi-system

Supplementary Features:

Includes mainframe 70001a, local oscillator 70900b; rf section 70905a; if section 70903a; frequency reference70310a; mate module 70590a e69, h72

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A532p0
