**Ac Voltage Rating:**

115.0 volts

**Frequency Rating:**

60.0 hertz

**Major Components:**

Ldesk cabinet assembly-1;  drawer cart cabinet assembly-1;  backplane assembly including cca's;  cable set;  test operator console which includes:  iii atlas compute r;  at keyboard;  color monitor;  epson ex-1000 printer with stand

**End Application:**

TACT-IC-ALA-IROP

**Electrical Power Source Relationship:**

Alternate operating

**Inclosure Feature:**

Multiple item w/housing

**Test Type For Which Designed:**

Test and fault isolate

**Phase:**

Single

**Functional Description:**

Tests communications interface unit, voice communications access unit, and fiber optic interface panel

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T228-a
