Overall Length:

16.500 inches

Overall Height:

1.200 inches

Overall Width:

6.250 inches

Unit Type:

Waveform generator

Criticality Code Justification:

Feat

Special Features:

20 mhz arbitrary; horizontal memory 12k; 20 v p-p output; 12 bits vertical resolution; sine, triangle, ramp, square, dc; continuous, triggered, gated, burst; freq ranges: sine: 10 microhz-4 mhz, square: 10 microhz-10 mhz, triangle: 10 microhz-100 khz; outputs: function, waveform sync, arbitrary; power: 32 w; 99 stored settings; electrostatic sensitive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-b
