**End Application:**

Nsn 4920-01-313-4603 power supply test station

**Product Name:**

Control interface, electronic test

**Special Features:**

Econsists of a chassis assembly heat sink, 2 relay assemblies, 2 power supplies, time totalizing digital meter, terminal boards, ac/dc power supply, automatic relay selector (microcircuit), 22 jacks

**Supplementary Features:**

Electrostatic discharge sensitive

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A31700
