End Application:

Nsn 4920-01-313-4603 power supply test station

Product Name:

Control interface, electronic test

Special Features:

Econsists of a chassis assembly heat sink, 2 relay assemblies, 2 power supplies, time totalizing digital meter, terminal boards, ac/dc power supply, automatic relay selector (microcircuit), 22 jacks

Supplementary Features:

Electrostatic discharge sensitive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31700
