End Application:

Advanced quick look subsystem, utl-1100

Component Quantity:

3

Component Document Origin:

Industrial

Document Source:

57957

Document Type:

Engineering drawing

End Item Source:

57957

Joint Electronics Type Designation System Item Name:

Test set group, electronic system

Joint Electronics Type Designation System Item Type Number:

Oq-452/u

End Item Name:

Advanced quick look subsystem

Usage Location:

Communications zone

Functional Description:

Selects and runs diagnostic programs for checking aql airborne subsystem equipment and builds built- in-test files

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
