End Application:

Radio frequency surveillance/electronic countermeasures defensive avionics system, an/alq-161a

Test Item Connection Method:

Jack

Special Features:

Used in conjunction with logic analyzer, p/n k4508-180, logic analyzer breakout box, p/n sk4005a

Functional Description:

Provides interface between the lru and logic analyzer breakout box

Reference Data And Literature:

Eaton corp./ail systems inc. Serd76p-62c, "t" box, logic analyzer test set, contract f33657-81-c-0215

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
