**Switch Position Quantity:**

1

**End Application:**

Radio frequency surveillance/electronic countermeasures defensive avionics system, an/alq-161a

**Adjustment Method:**

Switch

**Test Item Connection Method:**

Jack

**Switch Quantity:**

4

**Functional Description:**

Provides interface between lru and logic analyzer breakout box; provides capability of performing timing and state analysis on the 1205 digital bus

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A537k0
