Current Type:

Dc

Frequency Range Rating:

+5.200/+10.900 gigahertz

End Application:

Antenna test station, p/n13a6520 avionics intermediate shop, f15

Voltage Rating:

28.0 volts

Special Features:

Provides x-band frequency to main output (p2) and a coupled sample to referenced output (p4)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T320-j
