Overall Length:

8.875 inches

Overall Height:

1.700 inches

Overall Width:

4.512 inches

End Application:

Microwave test station, 4920-01-2881

Component Type And Quantity:

6 connector and 10 terminal

Special Features:

5100 megahertz; material: aluminum alloy; finish: clear iridite; frequency out: 560 to 1150 megahertz; next higher assembly: special controller, fs2000-2 opt 601; decade step; mounting method and configuration: no. 8-32 unc captive locking screws

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A5110
