End Application:

Radio frequency surveillance/electronic countermeasures defensive avionics system, an/alq-161a

Test Item Connection Method:

Jack

Switch Quantity:

4

Special Features:

Serves in conjunction with logic analyzer, k450b-180, and logic analyzer breakout box, sk4005a

Functional Description:

Provides the interface between lru and logic analyzer breakout box

Reference Data And Literature:

Serd 76p-60c, eaton corp./ail systems inc., contract f33657-81-c-0215

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
