Ac Voltage Rating:

120.0 volts

Frequency Rating:

60.0 hertz

Major Components:

8computer assembly 654e7027-5, disk drive 654ve7036-5, mag tape drive 654ve7036-6, terminal 654ve7036-2, printer 654ve7036-3, system power supply 654c3270-1, ecm rcvr power supply 654e7456-1, computer coupler 654c3220-801, cables w1, w2, w3, w4, w5 and ecm receiver

Inclosure Feature:

Multiple item w/housing

Test Type For Which Designed:

Provides input stimulus and monitors electronic countermeasures rcvr

Phase:

Single

Special Features:

Tester c/o 3 major functional areas: mini-mutes computer w/peripherals, ecm receiver chasis w/ cca's, and standard test equipment, 3 bay rack

Functional Description:

Verifies performance of ecm rcvr, an/mst-t1 5840-01-046-7622, radar group, training, and an/mst-t1a 5840-01-105-4656 radar set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
