Overall Length:

3.750 inches

Overall Height:

1.250 inches

Overall Width:

3.625 inches

End Application:

General purpose electronic test equipment gpete

Features Provided:

Electrostatic sensitive

Component Type And Quantity:

1 cable and 1 capacitor and 1 conductor and 4 connector and 1 cover and 1 housing

Special Features:

Major components and quantity: circuit card assembly 1; setscrew 1; mounting method and configuration: five no. 3 by 0.500 millimeter threaded holes spaced on random center

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
