**End Application:**

Low altitude navigation targeting infrared system for night (lantirn)

**Test Item Connection Method:**

Connector

**Special Features:**

Inductance decade 10 ohms to 1 megaohm, 5 steps; capacitance decade 10 picofarads to 100 microfarads, 7 steps; plastic control knob for each

**Functional Description:**

Inductance, capacitance, and impedance measurements

**Supplementary Features:**

C/o terminal board assembly-1; cover access-1; box-1; rotary switches-2; control knobs-2; coaxial connectors-4

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A537k0
