Overall Length:

3.875 inches

Overall Height:

0.375 inches

Overall Width:

2.812 inches

Features Provided:

Electrostatic sensitive

Component Type And Quantity:

1 capacitor and 1 choke and 2 extractor and 11 microcircuit and 2 pin

Special Features:

Major components and quantity: insul plate 1; mounting method: printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
