Circuit Current For Which Designed:

Dc

Indicator Type:

Bargraph

Installation Design:

Panel

Display Type:

Light emitting diode

Measurement Range:

+0.0/+4.0 kilowatts single indicator single range

Circuit Attachment Method And Quantity:

2 connector, receptacle

Nuclear Hardness Critical Feature:

Nonhardened

Style Designator:

Rectangular flush mtg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A310a0
