End Application:

Very high frequency omnirange (vor)

Special Features:

Overrange led indications for input voltages, excessive fm deviations and loss of loop lock; 500 mv rms to 2 v rms input signal level; input power: 10 v rms; fm deviation input range: 450 - 500 hz; duplicates operational characteristics of collins mod 478a-3, zifor111, p/n 622-3701-001

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
