Overall Length:

20.000 inches

Overall Height:

4.000 inches

Overall Width:

12.000 inches

End Application:

An/apy1/2-rsip

Test Item Connection Method:

Connector

Special Features:

SIMI-LA-RTO-6625

Functional Description:

Used for fault isolation and detection of if amplifier problems. Compatible with if chassis connectors, has test points for voltage & signal measuring, and capable of carrying up to p28vdc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
