Overall Length:

20.000 inches

Overall Height:

4.000 inches

Overall Width:

12.000 inches

End Application:

6625-01-102-0464, test set, radar

Test Item Connection Method:

Connector

Special Features:

Lmates with the control panel and provides impedance matching circuitry, wiring for the transmission of digital, analog and dc signals, test jacks for performing required measurements, and provides mechanical support

Functional Description:

Pd distribution and switching

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
