Overall Length:
20.000 inches
Overall Height:
4.000 inches
Overall Width:
12.000 inches
End Application:
6625-01-102-0464, test set, radar
Test Item Connection Method:
Connector
Special Features:
Lmates with the control panel and provides impedance matching circuitry, wiring for the transmission of digital, analog and dc signals, test
acks for performing required measurements, and provides mechanical support
Functional Description:
Pd distribution and switching
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Fiig:
A537k0
