Overall Length:

6.770 inches

Overall Height:

1.680 inches

Overall Width:

5.980 inches

End Application:

Smiths industries aerospace, interface test set

Test Item Connection Method:

Built-in plug and connector and jack

Special Features:

Interchangeable test adapter with 10 module positions; body material: metal

Surface Treatment:

Paint

Fsc Application Data:

Elec, elect. Properties measuring and test instruments

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A537k0
