Overall Length:

7.500 inches

Overall Height:

1.000 inches

Overall Width:

4.000 inches

Power Source:

Self-contained

Special Features:

Handheld; lan media scanners; weight 2.0 lbs; used to find most common wiring faults and measures electrical noise, dc resistance; prints and stores results; 12-key color coded function keys; 32 digit 2-line lcd display; distance range 20 to 4000 ft; freq range dc to 1000 hz; measurement range 0 to 24v peak; c/o cable scanner, operating manual, 5 1/4 in. Program disk, bnc shorting plug, resistive adapter, cable connector (idc 14-pin socket) to 2 alligator clip adapters, audio and visual continuity indicators and 6 rechargeable nicad batteries; tdr function allows operator to measure cable lengths, monitor network activity, verify continuity, measure dc loop resistance, and detect noise

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A504n0
