End Application:

6625-01-206-5368 semiconductor test

Special Features:

Three-point probe permits one handed connection to transistors installed on printed circuit boards

General Description:

Plastic body; 5 ft leads

Fsc Application Data:

Elec, elect. Properties measuring and test instruments

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
