Dc Voltage Rating:

28.0 volts

Major Components:

C-11892/arc-17 (v) control-indicator; md-1238/arc(v) modem communications

End Application:

An/arc17 (v) ; e3-b/c uhf urc

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Not included

Inclosure Feature:

Multiple item w/housing

Test Type For Which Designed:

Satellite communications modem & antenna element selection

Special Features:

This is a hot mockup of the antenna control & communications moden of the an/arc-17 (v)

Supplementary Features:

ANTE-NN-ACO-NTRO

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
