## NSN 6625-01-363-4428

Telephone Test Set - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6625-01-363-4428

Electrical Power Source Relationship: Self-contained Internal Battery Accommodation: Included Inclosure Feature: Single item w/housing Test Type For Which Designed: Dedicated communications lines Special Features: Provides continuity, channel loss, & round trip loss measurements to determine signal degradation, & allow bridging of a line to monitor signal levelstest set is hand held, equipped with both transmitter & receiver, visual display is four-digit liquid crystal display. Audio monitor with internal speaker Functional Description: Used in support of aws Shelf Life: N/a Unit Of Measure: Demilitarization:	
Included Inclosure Feature: Single item w/housing Ifest Type For Which Designed: Dedicated communications lines Special Features: Provides continuity, channel loss, & round trip loss measurements to determine signal degradation, & allow bridging of a line to monitor signal levelstest set is hand held, equipped with both transmitter & receiver, visual display is four-digit liquid crystal display. Audio monitor with internal speaker Functional Description: Used in support of aws Shelf Life: N/a Unit Of Measure:	
Included Inclosure Feature: Single item w/housing Test Type For Which Designed: Dedicated communications lines Special Features: Provides continuity, channel loss, & round trip loss measurements to determine signal degradation, & allow bridging of a line to monitor signal levelstest set is hand held, equipped with both transmitter & receiver, visual display is four-digit liquid crystal display. Audio monitor with internal speaker Functional Description: Used in support of aws Shelf Life: W/a Unit Of Measure:	
Inclosure Feature: Single item w/housing Fest Type For Which Designed: Dedicated communications lines Special Features: Provides continuity, channel loss, & round trip loss measurements to determine signal degradation, & allow bridging of a line to monitor signal levelstest set is hand held, equipped with both transmitter & receiver, visual display is four-digit liquid crystal display. Audio monitor with internal speaker Functional Description: Used in support of aws Shelf Life:  V/a Unit Of Measure:	
Single item w/housing  Test Type For Which Designed: Dedicated communications lines  Special Features: Provides continuity, channel loss, & round trip loss measurements to determine signal degradation, & allow bridging of a line to monitor signal levelstest set is hand held, equipped with both transmitter & receiver, visual display is four-digit liquid crystal display. Audio monitor with internal speaker  Functional Description: Used in support of aws  Shelf Life:  W/a  Unit Of Measure:	
Test Type For Which Designed: Dedicated communications lines Special Features: Provides continuity, channel loss, & round trip loss measurements to determine signal degradation, & allow bridging of a line to monitor signal levelstest set is hand held, equipped with both transmitter & receiver, visual display is four-digit liquid crystal display. Audio monitor with internal speaker Functional Description: Used in support of aws Shelf Life: N/a Unit Of Measure:	
Dedicated communications lines  Special Features:  Provides continuity, channel loss, & round trip loss measurements to determine signal degradation, & allow bridging of a line to monitor signal levelstest set is hand held, equipped with both transmitter & receiver, visual display is four-digit liquid crystal display. Audio monitor with internal speaker  Functional Description:  Used in support of aws  Shelf Life:  N/a  Unit Of Measure:	
Special Features:  Provides continuity, channel loss, & round trip loss measurements to determine signal degradation, & allow bridging of a line to monitor signal levelstest set is hand held, equipped with both transmitter & receiver, visual display is four-digit liquid crystal display. Audio monitor with internal speaker  Functional Description:  Used in support of aws  Shelf Life:  N/a  Unit Of Measure:	
Provides continuity, channel loss, & round trip loss measurements to determine signal degradation, & allow bridging of a line to monitor signal levelstest set is hand held, equipped with both transmitter & receiver, visual display is four-digit liquid crystal display. Audio monitor with internal speaker  Functional Description:  Used in support of aws  Shelf Life:  N/a  Unit Of Measure:	
signal levelstest set is hand held, equipped with both transmitter & receiver, visual display is four-digit liquid crystal display. Audio monitor with internal speaker  Functional Description:  Jsed in support of aws  Shelf Life:  N/a  Unit Of Measure:	
with internal speaker  Functional Description:  Used in support of aws  Shelf Life:  N/a  Unit Of Measure:	s to determine signal degradation, & allow bridging of a line to monitor
Functional Description:  Used in support of aws  Shelf Life:  N/a  Unit Of Measure:	& receiver, visual display is four-digit liquid crystal display. Audio monitored
Jsed in support of aws  Shelf Life:  N/a  Unit Of Measure:
