Overall Length:

20.000 inches

Overall Height:

5.250 inches

Overall Width:

17.000 inches

Ac Voltage Rating:

100.0 volts and 240.0 volts

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Unpackaged Unit Weight:

30.000 pounds

Instrument Calibration Range:

0.35 to 350 volts max

Calibration Range Quantity:

2

Phase:

Single

Special Features:

Mieee-488 interface, 2.5 v/hz low freq option, remote/local control, over-voltage protection, and rear panel terminal option; this instrument is a 7decade ac divider with .5 ppm terminallinearity and .1 ppm resolution

Functional Description:

Ratio measurements

Relationship To Similar Equipment:

SIMI-LA-RTO-ESIM

Supplementary Features:

8.5 character display; front panel controls; ratio controls; back panel ieee-488 setup

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T263-b
