Voltage Calibrator - Page 1 of 1

Fiig: T263-b

View Online at https://aerobasegroup.com/nsn/6625-01-365-8316 **Overall Length:** 20.000 inches **Overall Height:** 5.250 inches **Overall Width:** 17.000 inches Ac Voltage Rating: 100.0 volts and 240.0 volts Frequency Rating: Between 50.0 hertz and 60.0 hertz **Unpackaged Unit Weight:** 30.000 pounds **Instrument Calibration Range:** 0.35 to 350 volts max **Calibration Range Quantity:** Phase: Single **Special Features:** Mieee-488 interface, 2.5 v/hz low freq option, remote/local control, over-voltage protection, and rear panel terminal option; this instrument is a 7decade ac divider with .5 ppm terminallinearity and .1 ppm resolution **Functional Description:** Ratio measurements **Relationship To Similar Equipment:** SIMI-LA-RTO-ESIM **Supplementary Features:** 8.5 character display; front panel controls; ratio controls; back panel ieee-488 setup Shelf Life: N/a **Unit Of Measure: Demilitarization:** No
