End Application:

Hp3852a data acquisition & control unit, 6625012959831, 7050013495867

Unit Type:

Pulse generator

Special Features:

Is 3-channel stepper motor controller; directly provides: stepper motor control signals, limit inputs, built-in quadrature counters, pulse output; controls 3 stepper motors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-b
