End Application:

Hp 3852a data acquisition and control system

Unit Type:

Multiplexer

Special Features:

Mfg name-fet multiplexer

Functional Description:

Reduces the effects of real-world measurement error in a multi-channel system; optimizes thermocouple measurement accuracy; measures strain accurately

Supplementary Features:

Multiplexes-transient dc voltages; set gains of 1, 10, or 100 on ea. Channel; 4-channel track/hold multiplexer w/signal conditioning (3.5)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
