**End Application:**

Hp 3852a data acquisition and control system

**Unit Type:**

Multiplexer

**Special Features:**

Mfg name-fet multiplexer

**Functional Description:**

Reduces the effects of real-world measurement error in a multi-channel system; optimizes thermocouple measurement accuracy; measures strain accurately

**Supplementary Features:**

Multiplexes-transient dc voltages; set gains of 1, 10, or 100 on ea. Channel; 4-channel track/hold multiplexer w/signal conditioning (3.5)

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T228-b
